KOMPAKT S

open and plug

KOMPAKT S-BB-1M-2P-1USBC2

Digitel KOMPAKT S is a built-in desk power and data junction box with a high degree of modularity, capable of being equipped with up to 18 modules. The body of the device, located beneath a thoughtfully designed ergonomic aluminium lid, houses power and data sockets in colours and configurations adjusted to customer requirements. With the lid closed, the profile height is less than 2 mm above the desk, allowing KOMPAKT S to almost completely blend into its surroundings.

POWER CHARACTERISTICS:

Voltage: 250V
Amperage: 16A
Power connector: Wieland – male with cable
                              3x1,5mm2 length 400mm
Frequency: 50-60Hz
Temperature: 0 – 40°C
Relative Humidity: 0 – 95°C (no condensing)
Protection: IP 31

FIXATION:

With plastic fixator – thickness of the table up to 32m
With integrated hidden screw – without limmit

DIMENSION:

L = from 148 up to 500 mm, L1 = L + 22 mm, L2 = L + 42 mm

OFF ON	Switch 16A		USB
	Power outlet (Schuko) 45x45		USB charger 2A 2-ports
	Power outlet (UK) 52x52		USB charger 4A 2-ports
	Power outlet (CH) 45x45		USB charger 4A 4-ports
	Power outlet (DK) 45x45		USB hub 4-ports
	Power outlet (FR) 45x45		XLR mini
	Power outlet (USA) 52x52		Audio 3,5mm
	Power outlet Universal 45x45		HDMI
	Data Tunnel		VGA
	RJ45 Cat6		Display port

The innovation of the upgraded version of this device is that as well as the previous plastic fixators, whose fixing range is limited to a 33 mm desk thickness, with the additional screws that are already integrated into the plastic lid, it can be easily fitted into a desk of virtually unlimited thickness using the hex key included in the standard package. We believe this is yet another feature that makes the product entirely unique on the market.

A further advantage of KOMPAKT S is its capacity for a dual-source power supply, as well as its ability to serially connect multiple devices.

The desk junction box KOMPAKT S was born out of the need for increased and faster communication and easier connecting. It is designed primarily for offices, conference and meeting rooms, but is used most in hotel rooms.
